SSP Specialty Services Designations

★ RAD Samples are collected at this SSP.

Maryland’s Rapid Analysis of Drugs (RAD) program is a statewide drug checking program that allows SSP participants to voluntarily submit used paraphernalia for drug composition testing. Sample results are provided back to SSP participants through SSP staff. All testing is confidential - no personal information is required. To learn more about RAD visit <https://health.maryland.gov/pha/NALOXONE/Pages/RAD.aspx>.

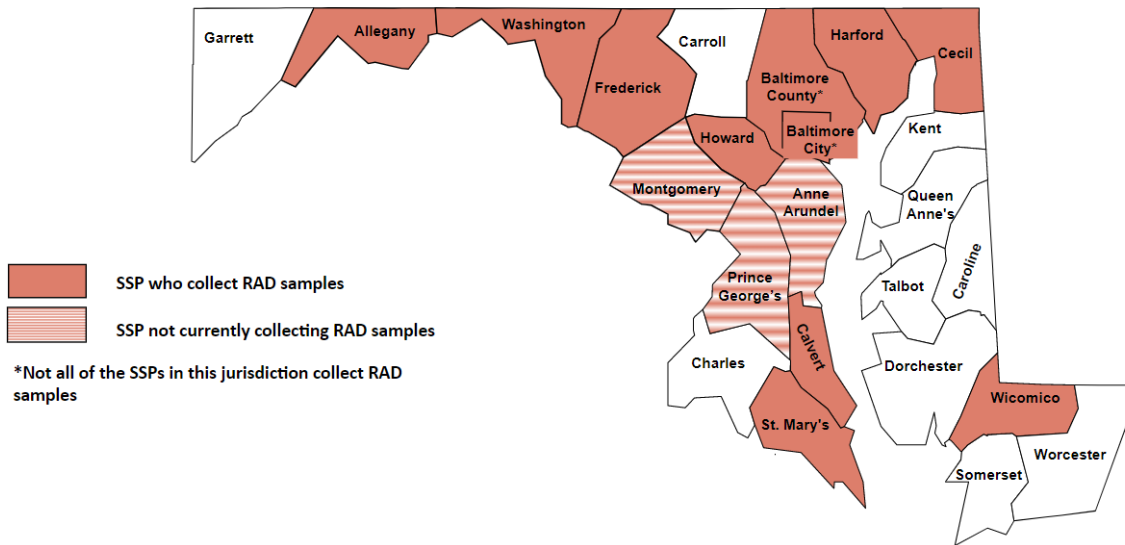

+ Hep C and MOUD Telehealth Visits through JHU are conducted at this SSP.

Maryland’s ACCESS Telehealth program is implemented at SSPs in partnership with Johns Hopkins University School of Medicine, Viral Hepatitis Center. The telehealth program provides access to medication for opioid use disorder (MOUD) and Hepatitis C treatment using telemedicine technology on site at their local SSP. To learn more and connect to a provider, reach out to an SSP near you where telehealth is available.

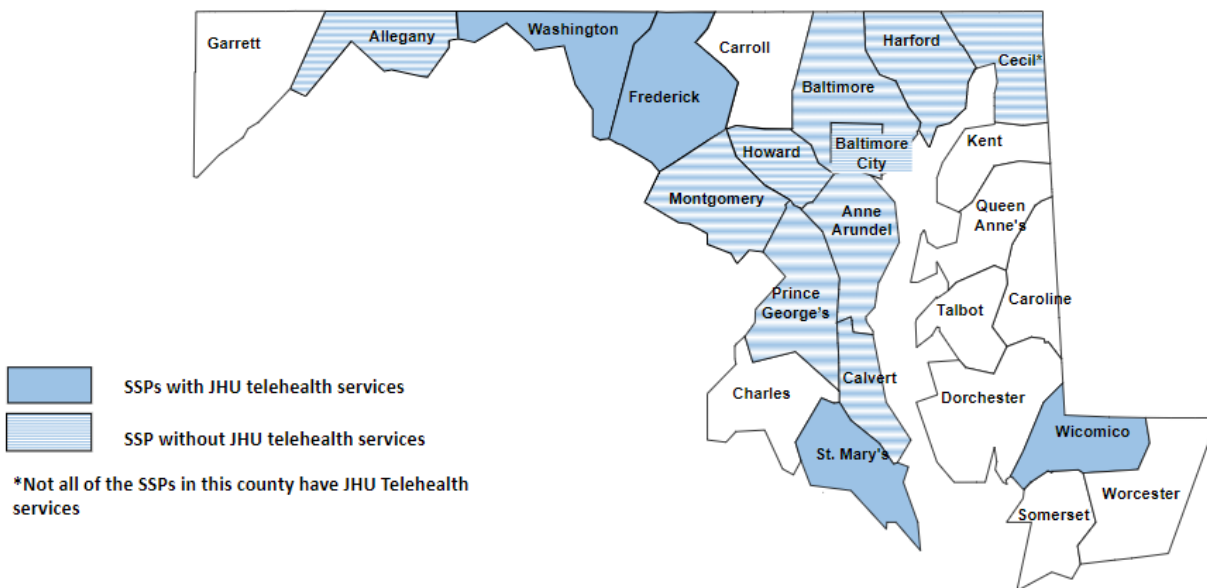

SSP Specialty Services Maps

These maps have been created to help visually identify the SSPs who participate in Maryland's statewide drug checking program (RAD) and the JHU Telehealth Program.

****Note:** Hope Street walks may be moved earlier or later in the day in response to extreme heat or cold temperatures. In the case of rain or other inclement weather, walks may be shifted to drive throughs. Voices of Hope makes every effort to never cancel a scheduled walk, but prioritizes the safety of staff, volunteers, and community members at all times.

By February of 2023, Voices Harford will have established walks throughout Harford County, with walks 7 days a week. If you think there's a need for a walk in your neighborhood, contact us to let us know.

SSP Legislation

Immunity from Prosecution for SSP Affiliates

MD Health-Gen Code § 24-908 (2016)

(a) Immunity from prosecution. A program staff member, Program volunteer, or Program participant may not be arrested, charged, or prosecuted for violating § 5-601, §5-619, § 5-620, or § 5-902(c) or (d) of the Criminal Law Article for possessing or distributing controlled paraphernalia or drug paraphernalia whenever the possession or distribution of the controlled paraphernalia or drug paraphernalia is a direct result of the employee's, volunteer's, or participant's activities in connection with the work of a Program authorized under this subtitle.

Statute and Regulations

MD Health-General §§ 24-901—24-909

MD Health-General §§ 24-901—24-909, Opioid Associated Disease Prevention and Outreach Programs (2016), is available [here](#). This statute allowed for expansion of Syringe Services Programs statewide. The associated regulations, Title 10, Subtitle 52, Chapter 01, are available [here](#).

Establishing a new SSP

Local health departments and community-based organizations throughout Maryland can apply to become an authorized Syringe Services Program, whether there is already an existing program in their jurisdiction or not. Visit bit.ly/MDHaccessHR for more information.
